

The People's Column

I have read with interest what has been said recently about fire prevention and cleaning up Bryan and my attention has been attracted to carelessness on the part of residents which makes this job of cleaning up and keeping clean more difficult than it should be.

For example, I see many persons leave the post office and scatter torn letters and other paper on the sidewalk after they leave, although there is a waste paper depository inside the building in the lobby and another outside.

The city makes a daily pickup of all waste paper in the rear of the business houses. In many cases this paper is not confined to the receptacles provided for that purpose and sometimes the receptacles are not of sufficient capacity to contain the refuse.

These are careless habits that tend to keep the city in a more or less unsightly and unsanitary condition and that should be checked and overcome. If all of us would think before we cast the waste paper to the four winds, the job of keeping the city streets, as well as our own yards and home ground, clean would be greatly simplified.

ABOUT BRYAN

Mr. and Mrs. W. A. Chisholm, baby son, and daughter Rosalie, of Temple, who are in Bryan attending the South Central Texas Sunday School and B. Y. P. U. convention are guests in the home of Dr. and Mrs. L. O. Wilkerson. Mr. and Mrs. Chisholm formerly lived in Bryan during the time Mr. Chisholm was educational director for the First Baptist church of this city. Mr. Chisholm is president of the B. Y. P. U. department of the convention.

Bryan Rotarians who attended the convention in Houston Monday and Tuesday came back last night. Among them were President Charles F. Hillier of the Bryan club and Mrs. Hillier, I. E. Warren, delegate from the Bryan club and Mrs. Warren, Judge A. S. McSwain, J. F. Casey and Tyler and Mrs. Haswell.

Judge H. O. Ferguson is expected to reach Bryan Friday or Saturday, returning from Sioux Falls, South Dakota, where he accompanied Hudson Myers of Houston and assisted to transfer a federal prisoner from Houston to that city.

Mr. and Mrs. J. Webb Howell, Mr. and Mrs. W. S. Howell and their house guests, Mr. and Mrs. Wood Phillips of Jacksonville, Ill., went to Houston today. They will spend Thursday in Galveston. This is Mr. Phillips' first visit to Texas and he is taking advantage of it to cover as much of its area as possible.

Steamroller of Calles Working To Crush Rebels

General Calles' steamroller tactics in fighting the rebels appeared to be developing broadly today.

The generals of the main army are steadily advancing northward and the capture of Escalon, an important rebel outpost town, appeared imminent.

A rebel chase along the west coast also is reported by the government, which said the insurgents who abandoned the siege of Mazatlan after a heavy fight, faced being bottled up at Culiacan.

Insurgent headquarters insisted a small rebel force is still besieging Mazatlan.

A group of American fliers is reported being organized by the rebels to counter the growing use of airplanes by government forces.

BRYAN WOMAN OPERATED ON

A telegram from R. R. Reppert at Temple brings to Bryan friends the news that Mrs. Reppert underwent an operation at a hospital there on Monday and that she is doing as well as could be expected following that ordeal. Her many friends will be glad to know of her safe recovery and hope for an early return to her home here.

WEATHER

(Continued on Page 6)

NEW ORLEANS, March 27. — For Bryan and vicinity: Cloudy with probably local thundershowers tonight and Thursday.

East Texas: Tonight and Thursday cloudy and probably thundershowers.

West Texas: Tonight and Thursday, probably showers.

Highway School Opens Today At A. & M.

CONVENTION BADGE SALE WILL START FRIDAY

REGISTRATION TO START FOR WHOLE COUNTY

Good Reports Come In From All Over East Texas

AIRPLANE COMMITTEE

Will Seek Fleet Army Planes For Show At Meeting

The sale of badges for the East Texas Chamber of Commerce convention, to be held here May 5, 6 and 7, will be started Friday, according to an announcement made last night by D. L. Wilson, chairman of the registration committee.

This decision was reached by Mr. Wilson after a conference with other members of his organization and with E. H. Astin, general chairman of convention arrangements.

The city will be divided into blocks and committees will be assigned each block for a close canvass. The aim of the committee is to sell every employee and wage earner in Bryan and Brazos county, as well as business men and property holders, a registration badge.

Want Army Planes

The matter of securing a fleet of army airplanes for the convention was brought up and thoroughly discussed. This suggestion, made by F. L. Cavitt, chairman of the convention decoration committee at the meeting of the directors of the local chamber of commerce Tuesday morning, was favorably acted on at that time and was endorsed by the convention committee chairmen at their regular meeting last night.

The reports of committee chairmen were to the effect that all details for the convention were being worked out satisfactorily and there remains no doubt but that all arrangements will be in apple pie order when the first convention visitor arrives.

Co-Operation Assured

Chairman E. H. Astin reported a fine reception in both Houston and Dallas where the A. & M. Clubs and the Chambers of Commerce will work together to put over the sale of registration badges. He also reported that neighboring towns and cities were coming through in good shape and considerable rivalry in the contest for the queen of East Texas which is expected to result in heavy sales of buttons before April 11, when the contest will close.

Within the next few days, it is reported, a committee will visit all Bryan business men and property owners who have cut their assessments or who have not met them, in an effort to complete the raising of the fund that is expected from this source. This committee, to be named by President J. Webb Howell of the Bryan and Brazos County Chamber of Commerce will be announced shortly and then will get to work.

The canvass of Bryan homes for the purpose of locating rooms that will be available for convention visitors also will be started shortly, it was said.

Highway Engineers Go To Short School

AUSTIN, March 27.—Led by Gib Gilchrist, their chief, many engineers of the Highway Department have gone to College Station to attend the division engineers' quarterly convention and three-day short course, to be held March 27 to 29, inclusive, at A. & M. College of Texas.

Mr. Gilchrist and G. G. Wickline, state bridge engineer, will deliver addresses before the gathering on different phases of construction and maintenance work.

Boys Break Jail; Held for Robbery But 15 Years Old

(By Associated Press) HILLSBORO, March 27.—Three prisoners held on burglary charges escaped from the county jail here last night by sawing the bars of their cell and sliding down blankets to the ground. Two of the prisoners are only 15 years old.

Will Dedicate K. P. Home Boys' Dormitory Sunday

PYTHIAN HOME, WEATHERFORD, TEXAS

WEATHERFORD, March 27.—On Sunday, April 7, members of Knights of Pythias of Texas will assemble here to dedicate the boys' dormitory at the Pythian Home in honor of Henry Miller, for forty years grand keeper of records and seal of the order in Texas. The

principal speaker will be P. O. Beard, grand chancellor, with Mrs. Fannie Gordon of Dallas, grand chief of the Pythian Sisters, speaking in behalf of the organization. Other prominent Pythians throughout the state will be present and take part in the exercises.

A suitably inscribed tablet in honor of Henry Miller will be placed in the boys' dormitory and will be a perpetual memorial of the work he has done for the order and for the Pythian Home. The ritualistic dedication service of the order will (Continued on page 2)

JURY CHOSEN WILSON CASE TYLER TODAY

NINE FARMERS AND THREE MERCHANTS HEAR TESTIMONY

(By Associated Press) TYLER, March 27.—A jury made up of nine farmers and three merchants will hear the testimony in the Loys Wilson trial here. Wilson is charged with murder in connection with the shooting of Rev. Fount Wallace at Troup last April. The jury was completed this morning.

After introducing four witnesses the state rested its case and a recess was ordered to give the defense time to prepare its case.

Ex-Texas Woman Leaves Fortune; Alcohol Is Fatal

(By Associated Press)

NEW YORK, March 27.—27. Miss Lelia Whitehead, 33, member of a prominent Texas family, who died here last week of acute alcoholism and myocarditis, left a third of her estate valued at between \$200,000 and \$300,000 to James D. Collins, an interior decorator and friend for several years. The balance was left to her sisters, Mrs. Beulah A. Mercer, Houston, and Mrs. Jewel Durham, Beaumont.

Nothing was left to Mrs. Marie Fondren of Houston, another sister. B. E. Siegelstein, Miss Whitehead's attorney, said Mrs. Fondren received nothing, as she had received benefits during Miss Whitehead's lifetime. A fourth sister, Mrs. Betty Rederman, died yesterday at San Antonio.

Miss Whitehead a niece of John Henry Kirby of Houston, came to Forest Hills five years ago. She lived lavishly in a \$45,000 home and at the time of her death had a \$1,500 Pekinese dog.

Collins was a frequent visitor. He has been separated from his wife since meeting Miss Whitehead several years ago.

Park Is Planned By Harvey People

The Bethel Cemetery Association will hold a meeting Sunday afternoon at 2 o'clock, at the cemetery to plan the use of about two acres of land not needed for cemetery purposes for a park.

This land, it is said, will have to be cleared and put in shape but would make an ideal park for the residents of the Harvey community. The finance committee and all residents with an interest in the cemetery are asked to attend the meeting.

Bryan in Good Shape From Fire Prevention Standpoint, Opinion Of State Official on Visit Here

"Bryan is in good shape, compared to many other Texas cities, from the view point of fire prevention," said Eugene Sanders of the state fire insurance commission Tuesday night after meeting many residents of the city and addressing five meetings during the course of the day.

Death Penalty in Assault Confirmed

(By Associated Press)

AUSTIN, March 27.—The death penalty was given Willie Grady by a Hunt county jury for criminal assault was affirmed by the court of criminal appeals today.

LONG CHARGES WILL BE TRIED HOUSE DECIDES

LOUISIANA HOUSE TO MEET TOMORROW AND LAY ALL PLANS

(By Associated Press) BATON ROUGE, March 27.—At a brief session today the Louisiana house of representatives voted to meet tomorrow as a committee of the whole, elect a chairman and perfect its organization for impeachment proceedings against Governor Huey P. Long.

SECOND ARTICLE VOTED AGAINST CHIEF JUSTICE

(By Associated Press) OKLAHOMA CITY, March 27.—The second impeachment article was voted against Charles Mason, chief justice of the state supreme court by the Oklahoma house of representatives today. The first article was voted Friday.

The article adopted today charged the chief justice with permitting persons other than members of the supreme court to write opinions. The vote was 52 to 28.

Ascension Day Pope May Bless Million People

(By Associated Press)

ROME, March 27.—A strong report in circulation is that the pope will bless 1,000,000 persons on Ascension Day May 9, from the Church of St. John Lateran.

The first exit from the vatican by Pope Pius XI, breaking the 59 years of voluntary imprisonment of the heads of Catholicism, has been a quiz, as to time and place, which diplomats and politicians as well as courtiers of the pope and king were interested in solving. All sorts of suppositions were afloat, but so far it was only a question of guessing, since no one knew when the event would occur which will remove the last trace of the Roman question.

CLUBHOUSE IS PLANNED

(By Associated Press) KARNES CITY, March 27.—Dick Ruckman, president of the Karnes City County Club, has been authorized by stockholders to increase the club's capital stock from \$7,000 to \$9,000. With the increased stock the club hopes to complete a clubhouse and pay off existing indebtedness.

CALL MONEY JUMPS TODAY IN NEW YORK

HIGHEST RATE SINCE 1920 SENDS STOCK VALUES TUMBLING

(By Associated Press) NEW YORK, March 27.—Wall street is still in the throes of a credit stringency today and the stock market, which rallied briskly at the opening, ran into renewed liquidation when the call money rate was marked up to 15 per cent the highest since 1920.

The prices, however, generally held above the low levels established in the violent decline at yesterday's record breaking session.

Funeral Service This Afternoon Mrs. Thibodeaux

At three o'clock this afternoon funeral services were held for Mrs. Morgan Thibodeaux from the home of her mother, Mrs. W. H. Morgan on Sterling Avenue. The body was brought to Bryan Tuesday night from Fort Worth, where she died Monday night after a lingering illness.

Born and reared in Bryan and Brazos county, deceased had a wide circle of friends. Only 44 years of age she is survived by her husband and one daughter.

Rev. R. S. Marshall, pastor of the Bryan Methodist church of which denomination she was a member, assisted by Rev. R. L. Brown, pastor of the Reliance Baptist church, her childhood home, conducted the services at the home and also at the grave in the Reliance cemetery where interment was made. Floral gifts from friends and loved ones covered her new made grave with a blanket of bright blossoms, tributes of love from many who mourn her loss.

Pall bearers were: Active, Thurston Cole, W. E. Johnson Jr., Jim Darwin, Locke McNeely, J. M. Ferguson, D. D. Jolly. Honorary: E. J. Jenkins, C. L. Eden, Edgar C. Jones, Clyde Goens, M. G. Buchanan, and Thomas Conway of Waco.

The 1930 convention will be held at Memorial Baptist church in Temple, March 4 and 5.

"You and I" Cast Drilling Daily For Performance

With just a week left in which to polish off the performance to the pink of perfection, director J. R. Burton is putting his cast for "You and I" through the usual phases of last hour rehearsals.

Literally chock-full of dramatic situations, and brimming with tenderness, climax and humor, the theme of "You and I" is expected to delight those who see it presented by the Little Theatre on next Tuesday night at the high school auditorium.

"Wisdom has nothing to do with love," is the key note of the play, and in the choosing of careers and in the sacrifice of career for love lies the touching beauty and strength of the story as presented by some of Bryan's best dramatic talent.

The cast is composed of Martha Rivers Allen, Lila Graham Bryan, Sally Boyett, Lyle Evans, C. E. Parker, I. E. Warren and J. R. Burton.

CURTAIN OIL PRODUCTION NOW ADVISED

Basis of 1928 Will Be Used in Plan, It Is Said

FEDERAL OIL BOARD

Will Be Asked To Pass On Program, Then the States

(By Associated Press) NEW YORK, March 27.—The return on April 1 to the 1928 production basis was recommended to the directors of the American Petroleum Institute today by the institute's committee on world production and consumption of petroleum and its products.

Desire to formulate a plan whereby the conservation of crude oil can become an actual accomplishment and at the same time avoid a widely fluctuating condition resulting from overproduction guided the committee in its study of the oil industry, R. C. Holmes, chairman of the committee, said.

A final plan of action will be submitted to the federal oil conservation board for approval and then submitted to the state authorities of principal oil producing sections.

CALIFORNIA WILL CUT 138,000 BARRELS

(By Associated Press) LOS ANGELES, March 27.—Three hundred California oil operators at a meeting here last night voluntarily agreed to curtail oil production in this state by at least 138,000 barrels of crude oil a day.

Warden's Receipt Is Given Sheriff For Brazos Negro

Sheriff J. H. Reed returned from Huntsville Tuesday afternoon with a receipt from Warden E. F. Harrell of the Huntsville prison for the person of Matthew Sanders, negro, who will be electrocuted at the prison Saturday, April 27, some time before sunrise.

The sheriff stated that Sanders who gave no evidence of worry over his impending fate entered the prison and joined the other inmates of the death house there as calmly and unworried as he has been since his arrest ten days ago.

Barron Elected By Baptists In Convention Here

Today's program concludes the South Central Texas Baptist Sunday School and B. Y. P. U. convention which has been in session at the College Avenue Baptist church since Tuesday morning.

In the closing hour of the session W. S. Barron was elected president of the Sunday School division, and H. P. Black president of the B. Y. P. U. section. Mrs. J. L. Reese was re-elected joint secretary for the two sections and Rev. L. E. Harrell of Temple was named as chorister for next years convention.

The 1930 convention will be held at Memorial Baptist church in Temple, March 4 and 5.

COTTON MARKET

The cotton market bounced back today, futures closing at from 12 to 18 points up while local spots also showed a gain, being quoted from 18 7-8 to 19 3-8.

Tick Eradication Not Needed To Raise Fine Dairy and Beef Cattle Successfully, Says Seale

By Nell Bentley Science has made no finer contribution to the industry of livestock raising than the discovery and development of methods whereby the peculiar species of ticks which cause Texas or Tick Fever may be effectively destroyed and eradicated by diligent application of systematic dipping. Parallel only with the dipping vat methods of tick eradication is the process of inoculating cattle against the disease caused by fever ticks. Both seem of equal importance in the prevention of tick fever and the production of cattle that meet all the high standards of requirement on the markets and in the field of livestock breeding today.

Since federal and state laws regulating tick eradication work began to be effectively applied (Continued on page 2)

Property Owners Must Share Burden

"We need the East Texas Chamber of Commerce convention but the entire load of financing this gathering should not be thrown on the business houses of the city. The owners of real property should do their part, and then some," said Walter J. Coulter this morning. "It's a bit discouraging to ask a man who is worth \$250,000 to give and he turns you down flat. I feel that if the property owners will come through with their part we will finish with flying colors, have a royal good time, with plenty of fun and frolic, and do the old town lots of good during the convention."

BRYAN LIONS ARE TOLD OF FIRE CAUSES

ADDRESSED BY MEMBER OF STATE INSURANCE DEPARTMENT

Tuesday's program committee of the Bryan Lions Club, with Lion Tom G. Suber, chairman, availed itself of the opportunity of securing a good speaker upon a subject that is of great importance and interest to every citizen of Bryan. Eugene Sanders of the State Fire Insurance Department spent Tuesday in Bryan at the request of the Fire Prevention Committee of the Chamber of Commerce.

Lion J. Bryan Miller, chairman of the fire prevention committee of the Chamber of Commerce, presented Mr. Sanders to the club, stating that he was in Bryan in response to an invitation of his committee in order that the way may be paved to a fire prevention cleanup campaign in April.

Fire prevention is a good business proposition, said Mr. Sanders, and he referred to a New York (Continued on Page 2)

Plan Two Bands For Local Youth; Dunn Will Teach

Boys and girls of Bryan who have had no musical training, but who desire to learn to play band instruments and who may be shown physically qualified by an examination, will be given an opportunity to get free instruction and become members of either a boys' or girls' band, said R. R. Story who is in Bryan for the purpose of organizing these bands.

He stated this afternoon that parents of all children who are interested in this matter, with their children, should attend a meeting to be held Friday night at 8 o'clock in Carnegie library where the plan will be explained in detail.

The instruction of the children will be in the hands of R. J. Dunn bandmaster at A. & M. College and he also will aid in the testing of the children for the purpose of determining their ability to learn to play some band instrument and the one for which they are best qualified.

This movement has been fostered by Mr. Story in many cities and just has been worked out in both Beaumont and Houston in this state. He is a strong believer in the refining influences of good music and of interesting the boys and girls in band instruments and band music. He said this afternoon that no reason existed why Bryan should not have two flourishing bands in three or four months, one for girls and the other for boys. When the course of education has progressed to a certain point a public performance is given for the benefit of the parents and friends.

Murder Charges May Be Filed in Police Killing

(By Associated Press) COLEMAN, March 27.—Murder charges are expected to be filed here today against two men arrested Monday in connection with the slaying of W. L. Echols at Van Alstyne last week.

The men are also held in connection with the wounding of Elgie Leslie here during an oil station robbery.

A third suspect in the Van Alstyne shooting was arrested last night near Dallas.

ALL SECTIONS OF STATE ARE REPRESENTED

Early Registration Heavy and May Reach 150

STERLING IS EXPECTED

Course Is Fifth Held At College For Good Roads

(Special to The Eagle) COLLEGE STATION, March 27.—More than 100 had registered Wednesday morning for the opening session of the fifth annual short course in highway engineering at the A. and M. College of Texas and registrations are expected to reach 150, J. T. L. McNew, professor of highway engineering, who has charge of arrangements for the short course, announced.

Those in attendance include engineers, contractors, officials and others interested in the street and highway problems of Texas. The short course is being held under the direction of the department of civil engineering of the college and in cooperation with the state highway department.

With Prof. J. J. Richey, head of the department of civil engineering of the college, presiding, the opening session was held in the lecture room of the Physics building. The address of welcome was delivered by Dean E. C. Bolton of the school of engineering. Response was by O. A. Seward, Navasota, resident engineer of the state highway department for Grimes county.

Speakers For Today T. B. Warden, engineer-manager of the Gulf Coast Good Roads Association, was the principal speaker at the morning session, his subject being "Keeping the Public Road on Improved Highways."

Prof. J. T. L. McNew presided at the afternoon session and the program called for talks by the following: Prof. T. A. Munson, "Safety As It Affects Highway Design;" discussion of "Experiences with Bituminous Macadam in Shackleford County," by J. E. Pirie, county engineer, and discussion of the same subject as it applied to Baylor county by H. S. Kerr, resident engineer; C. C. Todd, "Black Base Construction at Breckenridge."

Commencement Heads Here Among those present for the opening session was Gib Gilchrist, state highway engineer. R. S. Sterling, chairman of the state highway commission, is expected to arrive Thursday.

Registration List A. J. Adeock, Ft. Davis; E. P. Arneson, San Antonio.

Summer D. Bacon, Childress; P. S. Bailey, Plainview; Clyde Bates, Houston; Thomas W. Bailey, Corpus Christi; Tyree L. Bell, Corsicana; R. C. Black, Beaumont; John E. Blair, Bryan; W. H. Blanks, San Angelo; G. A. Bracher, Jacksonville; F. L. Bramlette, Dallas; J. R. Briggs, San Antonio; Geo. R. Bringham, (Continued on page 2)

Negro Business Block Is Burned

(By Associated Press) FORT WORTH, March 27.—Practically half a block of negro business establishments was destroyed by fire here today. H. H. Cotton, a fireman, was injured while fighting the blaze.

"Let it be the high privilege of this great and free people to establish a republic where rural pride is equal to civic pride, where men of the most refined taste and culture select the rural villa, and where the wealth that comes from the soil finds its greatest return in developing and perfecting that great domain of nature which God has given to us as an everlasting estate." — Dr. Seaman A. Knapp.

SIDEWALKS NEEDED

Twenty-five years ago a number of Bryan's leading business men, members of the Business League, discussed a number of important movements and additions thought necessary to the material progress of the city. Among them was the building of more and better sidewalks.

In that period much progress has undoubtedly been made but almost a hundred miles of sidewalk are still needed to put the city in good condition from the point of either the one wheel or the visiting pedestrian. On any street of the city, either one or two sidewalks are needed. One sidewalk is not enough. One sidewalk is not enough. One sidewalk is not enough.

At the present time the city is engaged in more or less street paving and there is no reason why more improvement and sidewalk building should not go hand in hand. The work could be carried out expediently for the reason that paving contractors are located in the city and have equipment on the ground for this sort of work.

There is a possibility that the work at Brady Thursday is not planned in earnest as a time but rather as a wild prank which is evolved in the minds of some of the scatterbrains of the present generation, according to police reports from that community. Even though this proves to be the case some steps should be taken to curb the wilfulness and disregard for law and order and agency that prompts such an action. If the younger generation of our time is worse in morals or in disregard of law than were their fathers and mothers in their salubrious day, it should not be held wholly responsible. There is a more or less general disregard for law among all ages and all classes and the younger generation is more on its own and is without the home life and home influence and influences that held the older generation in line until they have worked out some of the basic problems of life. These youngsters should be made understand that they cannot imitate the gangster and save themselves the punishment of something should be done in and in other similar cases to check lawless tendencies that grow, most cases, out of home influences that are waning or have actually disappeared.

Plans now being worked out for a city of waving flags and banners and homes bright with autumn flowers at time of the Texas Chamber of Commerce convention, to be held here May 6 and 7. This is a scheme in which everyone can help to some extent. If it is not possible to hang flags and banners it is possible to clean up lawns and to plant flowers that will be in bloom at that time. Not only Bryan but the whole state should be able to make unusually good appearance for the benefit of thousands of visitors but the result is bound to be more than usual pride in the city and those of us who call Bryan home.

Protsky seems determined to get to Russia. He now is reported collecting a fund to finance a solution in that country. The elite for blood must be as hard to overcome as some others.

Soldiers, as a rule, live in a glamor created by stirring events and if their careers have been successful occupy a place of consequence in the life of their nation. More than this was true of Marshal Ferdinand Foch, who died yesterday after a lingering illness. The French chief of the Allied forces was brought to world prominence by the last year of the World War. He was credited with a large part of the strategy that resulted in the final defeat of the Germans and the place he won in the affections of his people he retained to the last. This place he also held with the people of the other nations whose men fought under his leadership. He was a man of simple habits and chivalrous disposition and as such made an appeal to millions who ordinarily object to the bombast of the professional soldier. Although he led many thousands to their death he was at heart a kindly man but it will be as a warrior and not as a humbly inclined Frenchman with the many small virtues that mark so many of his race that he will be remembered.

R. S. Sterling, chairman of the state highway commission and strong proponent of the state bond issue plan for financing state roads, says the fight for the issue will be continued in the hope of victory in 1931. This is as it should be. No great change in public sentiment ever was worked in a day, especially in matters of revenue production for public construction and more educational work must be done. The cause is important enough to warrant all the effort necessary to carry it to a successful conclusion.

Harry Daugherty, erstwhile friend of the late President Harding and member of his cabinet, has broken a long silence and claims innocence of all the many charges made against him. But it'll take more than mere denials to explain away such incidents as the K Street house and the death of Jesse Smith to those who have kept track of Daugherty's political activities through the years preceding the Harding campaign and just after.

No drastic drives but a tightening up of enforcement machinery and a reorganization of the federal judicial system is depended on by Hoover for better observance of the prohibition laws. This should mean more respect for and better enforcement of all law and should have the support of all citizens.

Fires of undetermined origin cause a fire loss of \$1,291,011, in Texas in January. This shows plainly the need for fire prevention study and the campaign along this line planned by the committee of the local Chamber of Commerce should have the support of all good citizens.

After hearing the defenses of the abbreviated feminine costumes of the day on the ground that they do not interfere with the healthy action of the ultra violet rays of the sun we wonder how our mothers, grandmothers and other maternal ancestors ever weathered the storm.

The Father of Waters has again broken his banks. We hope that the present administration is not much older before some real work is done to make the floods that for years have devastated the Mississippi Valley practically impossible.

Rusk county already has made its quota sought in support of the East Texas Chamber of Commerce convention. Brazos has a bigger job, of course, but time flies and there remains much to be done. It's time for everyone to pitch in.

Out in Brazoria county they are offering prizes in a clean-up campaign. How about a clean-up in Brazos county and Bryan just for the satisfaction of being clean and showing a clean face to visitors.

Mexican rebels are reported to be getting short of money. Maybe that explains why so many of them seem to be running around in circles.

With the standard of efficiency in public office what it is today such a verdict as that found in the impeachment of Governor Johnston must come as a terrific shock.

Every day, practically, the name of some Texas city that has established an airport is found in the public print. But none of them is spelled Bryan.

Schulenburg has been chosen by one of the great milk companies as the site of a mammoth plant. What's the matter with Bryan.

Statistics show that the housewife has a full time job. Everyone admits that. All the kicking is about the lack of housewives.

Statistics show that the housewife has a full time job. Everyone admits that. All the kicking is about the lack of housewives.

Bedias Will Close Up For Convention

Bedias will close up shop and come to Bryan en masse on Monday, May 6, the big day of the East Texas Chamber of Commerce convention, according to a telephone message received from that place this afternoon by S. E. Eberstadt, secretary of the Chamber of Commerce.

It was stated that a petition had been circulated and signed agreeing to close all stores and other places of business and to come to Bryan in a body. The statement also was made that all the registration buttons left there had been sold.

"Bedias is coming through 100 per cent," said Secretary Eberstadt.

TICK ERADICATION

(Continued from page 1)

Some 20 years ago, 70 per cent of the 100,000,000 square miles of territory designated as tick infested by Dr. E. Salmons after two or three years work on the preliminary survey conducted by the United States government prior to the year 1890 has been removed from quarantine. This means that stock raisers within territory thus freed have been given an opportunity to produce high grades of beef and dairy breeds without the handicap of tick fever, without the erring effect of the ticks on their cattle, and with assurance that the world's best markets would be open to their livestock at any and all times. Most of the territory still tick-infested lies in the southeast portion of the United States, and is probably the natural habitat of the fever tick.

Brazos county lies within that area of Texas where dipping campaigns have so far failed to effectively eradicate the tick. Theories accounting for this failure are wide and varied. It was our pleasure recently to interview H. C. Seales of Benchley, one of the most prosperous and successful cattle raisers in this section of Texas, on the subject of tick eradication and the handicap of ticks to the dairy industry here; and we consider his judgment based on his own observation and experience well worth passing on to others who raise cattle or who might expect to go into the business of raising beef or dairy cattle.

In addition to his ranch land lying in Brazos and Robertson counties, Mr. Seale has a ranch in Callahan county stocked with pure bred Herefords. His Callahan property lies in one of the sections where dipping has proven entirely satisfactory as a means of eradicating fever ticks, and the results of the systematic dipping campaign there made an ardent enthusiast of Mr. Seale on the subject of enforced dipping; yet the results of a similar campaign carried on here brought disaster and loss to the Seale Panch near Benchley.

Mr. Seale has not lost faith in the methods that have proven successful elsewhere, but he seems to have discovered why the same methods fail to be permanently effective here. He frankly made the statement that "West Texas has finished the job of tick eradication wherever the land is all enclosed, but I consider it utterly impossible to completely eradicate ticks so long as we have free range in the river bottoms and in unfenced areas." Making every possible effort to comply with the regulation of enforced dipping during the campaign waged here a few years ago, Mr. Seale succeeded in clearing his fenced area of ticks. He was very proud of the job indeed. Then came spring rains, and the water from tick infested areas upstream from his land evidently deposited a new crop of ticks along the waterways on his ranch. His highly bred cattle, free from ticks and therefore lacking the natural immunity that ticky cattle possess, fell victims of the ranchman's scourge and died by scores.

Did H. C. Seales quit the cattle business? I should say not. Did he cease to breed and raise high grade Herefords? Not on your life. He did some calm, deliberate thinking and, developing some theories of his own, he has found out how to grow both ticks and cattle on the same ranch. He dips religiously and regularly so that his cattle will never be stunted and sapped of vitality by the ticks, yet he feels that the presence of enough ticks to provide natural immunity for his stock is a safeguard rather than a menace to his herd.

Every year, Mr. Seale ships Herefords, not more than one year old, from his Callahan county ranch where there are no ticks, to Benchley and turns them on the range with his ticky Herefords. He merely takes the precaution of immunizing the West Texas products before turning them into tick infested pastures. This is a very simple process indeed. It consists of drawing some blood from an animal that has ticks on its body and injecting it with a hypodermic syringe into the veins of the animal from the tick free area. This process of immunization, says Mr. Seale, reduces the loss from bringing tick free animals into tick infested territory to a point so low as to be negligible. He repeated the precaution, however, that one, young stock should be moved in this manner and that the imported animals need careful attention and feeding for a few weeks while they recover from the light case of fever resulting from the inoculation.

DEDICATION

(Continued from page 1)

This dormitory was completed in 1914, just west of the main building and was the second built of the three buildings that now constitute the plant of the Pythian Home. To the east of the main building is the girls dormitory, three buildings being connected by archways so that students, teachers and employees may go from one building to another without being exposed in bad weather.

It has been a little more than 20 years since the Pythian Home was established and during that time 418 children have been received in it, with 118 there at present, some 300 children having gone from its protecting care into the active affairs of life. There is not a record of one of these who has gone from the home who has not become an active and useful citizen, or who has done anything to reflect on the splendid training received in its walls.

The selection of the location for this home was an inspiration for there are few more beautiful sites for any public building in Texas. Crowning a gentle eminence the building looks out on a beautiful valley with rolling hills beyond. A few hundred yards south of the home is the Bankhead highway, the "Broadway of America," along which rolls a constant stream of local and transcontinental traffic. There are two gateways facing this highway with a beautiful driveway connecting them, passing through the grounds and directly in front of the main buildings.

The 200 acres of land owned by the home are ideal for its use. The drainage is perfect and there are excellent playgrounds around the buildings. There are 75 acres of land in cultivation and ten acres in orchards. The soil is adapted to growing a wide variety of crops and is utilized in producing many things needed in the home. A herd of 15 registered Jersey cows, chickens and turkey help in furnishing food supplies for the home and all these things give training to the children in the practical affairs of life. Everything is done on the basis of one big happy family, but with a sufficient number of trained employees to look after tasks beyond the ability of the children or that might interfere with their school duties.

Since the fall of 1918 the home has been under the supervision of Judge and Mrs. F. S. Heffner, as superintendent and matron. Judge Heffner resigned as county judge of Falls county before his term had expired in order to accept the position of superintendent. Both he and Mrs. Heffner have given their hearts and souls to this work, been father and mother to the children under their care. Judge Heffner is a man of wide business experience and he has been invaluable in financing the home and in helping the directors shape its financial affairs. Only those consecrated to the service of humanity could have accomplished what he and Mrs. Heffner have.

The dedication ceremony on April 7th will be but a recognition of a great task that has been faithfully done. The dedication of this building to Henry Miller does honor to one worthy of it in every way but no memorial to him will ever mean as much as the memory of him carried out by the boys who have gone out by the portals of this home. Not only this building but all those of the home have been consecrated by mothers' prayers, have been made things of life and beauty by childhood laughter, have been dedicated to humanity by the good they have done.

City tenement owner who had made the statement that he was not responsible for the loss of life by fire in his tenement buildings. But the owner later changed his mind when the courts rendered judgments against him amounting to \$60,000 for the loss of life by fire. "Under the laws of Texas," he said, "One is liable from a criminal as well as a civil standpoint." Education is the greatest means of stamping out an evil, therefore by teaching fire prevention in the public schools, as you are doing here in Bryan, you are raising up a generation of people who will know how to prevent fires," said Mr. Sanders. "It is said that 350,000 people cross the Brooklyn Bridge daily. A person could stand at one end of the bridge and give every person crossing a Ford car and still have \$2,000,000 left from the annual fire loss of the United States." The profession of burning is now almost equal to that of bootlegging, according to the speaker. Mr. Sanders closed his remarks by giving four reasons why everybody should practice fire prevention: 1, to save the loss of humanity; 2, the economic loss to society; 3, the individual loss; 4, the reduction in insurance rates.

Several other visitors were present: B. H. Noel, local manager of the Southwest Telephone Company, who was the guest of Lion Ty Cobb. The club was glad to receive Mr. Noel's application for membership. Wood Phillips of Jacksonville, Ill., was the guest of his uncle, Lion W. S. Howell. Mr. Phillips stated that he is making his first visit to Texas, and thus far is very favorably impressed. Lion Chas. E. Griesser, chief of

Two young people present who appeared upon the program were Miss Kathleen Cason and George Griffin Jr. Both of these young people appeared in the cast of the Lions Minstrel and have appeared before the club on numerous occasions. They delighted those present with three excellent vocal duet numbers.

President Henry S. Locke announced the program committee for April as follows: J. Bryan Miller, chairman; J. T. Burtis, Ty Cobb and Dr. M. L. Jones. President Locke also called attention to the Lions state convention in Austin on May 16 and urged that every member attend, if possible.

Lion F. D. Fuller, chairman of the Easter Egg hunt committee, reported action and workings of his committee to date. Those in attendance were: J. Coulter Smith, F. D. Fuller, Joe Kaplan, A. S. Ware, B. H. Noel, Ty Cobb, Thos. G. Watts, Eugene Sanders, Tom G. Suber, J. Bryan Miller, Henry Locke, C. E. Jenkins, C. E. Griesser, J. H. Head, W. S. Howell, Wood Phillips, S. E. Eberstadt, C. L. Curlee, W. E. Leverkuhn, Harry L. Druham, Jno. M. Lawrence Jr., Lamar Jones, M. M. Erskine, J. D. Maniatis, Noah W. Dancy, J. O. Dickenson, J. T. Burtis, Mrs. Roy Danforth, Miss Kathleen Cason, George Griffin Jr. and R. C. Franks.

Quarter Century of Service Here By Rev. Father J. B. Gleissner Celebrated by Parishoners Sunday

On Sunday afternoon a celebration planned by the board of trustees for St. Joseph's Catholic church was held at the Knights of Columbus Hall, the occasion commemorating the 25th anniversary of Father Gleissner's service to St. Joseph's parish.

As this was the regular day for Father Gleissner to serve at the Calvert and Hearne churches, he was absent from the city until 3 o'clock, when he was taken to the K. of C. hall and to his great surprise he found about 1,000 friends and parishoners gathered to greet him and pay tribute to his many years of loving ministrations here.

Father Gleissner was met at the door by little Misses Marie Martensen, Helen Sosolik, Evelyn Kohler, Victory Braczyk and Frances Fridel, the latter delivering a beautiful speech of welcome. He was then conducted to the platform where moved to tears Father Gleissner made a touching and beautiful response.

A sterling silver chalice was presented to the honoree by T. D. Daly, on behalf of the entire parish. Other gifts were made as follows: St. Elizabeths, by Mary Nemes; Alter Society, Mrs. C. H. Gardner; Catholic Daughters of America, Mrs. Jno. Stamey; Mothers' Club, Mrs. Fannie Vitopi; Children of Mary, Miss Jennie Braczyk; Knights of Columbus, Simon Nemes; Catholic Workmen, Frank Zubik; St. Venecolor, Raymond Valouch.

There were many visitors from Caldwell, Calvert, and Hearne who came to pay their tribute to Father Gleissner. Among those who spoke in tribute to his worth as a citizen and a minister were Mayor Wilson Bradley, Judge W. C. Davis, Hon. W. S. Barron, Hon. F. Law Henderson, Fathers T. J. Fleming and E. Holub of St. Mary's Seminary, LaPorte, Father N. Dominsky of Anderson and Father B. Bravi of St. Andrew's church, Bryan. Father Bravi presented a gift from St. Anthony's parish to the honoree.

A peculiar co-incidence of Sunday afternoon's celebration is that Father Gleissner entered the room where his friends were gathered to greet him almost exactly at 3 o'clock, and on 25 years before he had entered Bryan to become the priest in charge of St. Joseph's parish on the 3 o'clock train in the afternoon.

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old-fashioned remedy, which can be gotten at 35c per bottle from ROMAN & VICK.

The arrangements committee planning this occasion was composed of Frank Zubik, Frank Pickney, Frank Braczyk and Tom Daly. A service was conducted at St. Joseph's church today in commemoration of the first service conducted by Father Gleissner just 25 years ago.

American Legion And Auxiliary at Waco Convention

A party composed of members of Earle Graham Post, American Legion, and its Auxiliary, returned from Waco Sunday evening after attending a convention of the 11th and 6th districts on Saturday and Sunday.

Mrs. I. H. Bartz as president of the local auxiliary and Mrs. Harry Estill as representative, report a most interesting and profitable meeting. The Bryan auxiliary received special commendation on its program of Americanization work, which has included the awarding of American flags in every room of the local grammar schools where the children have all learned to sing the first verse of the "Star Spangled Banner" and repeat the salute to the flag.

The report made by the Bryan Auxiliary was one of the best given in the convention and the auxiliary was further honored when Mrs. Bartz was asked to preside.

Ground Broken Monday Morning New City Home

Elizabeth Ann Bradley, daughter of Mayor and Mrs. Wilson Bradley this morning turned over the first spadeful of earth in the excavation being made for the foundations for the new municipal building.

J. Webb Howell, president of the Bryan and Brazos County Chamber of Commerce acted as master of ceremonies and made a short address reviewing the progress of Bryan.

Wayne Durham, son of Mr. and Mrs. H. L. Durham, recited "America's Creed," and Rev. R. S. Marshall made a short prayer. A short talk also was made by Walter J. Coulter.

Work on the excavation was started in real earnest immediately after the ceremony at 8 o'clock and concrete will be poured for the foundations as quickly as this is completed.

The best bet is to put your money on the fellow who believes that miracles can happen in 1929.

The average American hen is some busy bird, as she lays from 75 to 90 eggs a year, it is said.

3600 Dyed Eggs To Be Used For Big Easter Hunt

Plans and final details for the Lions Club annual Easter egg hunt have been completed by the various committees. Bill Wimberly, chairman of the egg committee says the 3,600 eggs have been engaged and will be delivered in ample time for them to be dyed. Arrangements have already been made for this large number of eggs to take their final color before being hid away in the grass, under bushes and maybe in trees in Sue Haswell Park Saturday morning, March 30.

Promptly at 2.30 Saturday afternoon the hundreds of boys and girls and maybe some grown children, will be turned loose as if a tremendous pack of dogs held in readiness for a big fox hunt. The city will not be bothered with the expense of cutting grass and weeds in Sue Haswell park for some time. In fact a cow might find it tough grazing after that throng of glad-hearted children have trampled the grass over the several acres of the park. Down through the valleys, up on the hill tops, under brush, grass, bark and hundreds of other secluded spots big Easter eggs will be in hiding, waiting to be uncovered by some boy or girl whose heart will be gladdened by the sport of searching out the eggs.

A large number of prize eggs bearing the name of some merchant or business house will be found in those most secluded places. Aside from the joy that comes to the children in roaming the grounds and endeavoring to find the largest number of eggs, many children will be glad when they present their prize egg to its owner and receive the prize offered for its return.

Every child in Brazos county is cordially invited and urged to attend the 1929 Bryan Lions Club Easter egg hunt.

16 New Members At 1st Baptist After Revival

The one-week revival meeting held at the First Baptist church closed Sunday night. The pastor, Rev. R. E. Day, did the preaching and H. P. Black, educational director conducted the song services and the entire membership of the church took part in the enlistment and evangelistic work. The attendance at every service was unusually large.

The pastor, Rev. R. E. Day, preached at the morning hour on the subject "Let Lingered." When Rev. Day called for those who would unite with the church 11 went forward, 9 for baptism and two by letter. At the night service, four joined by letter and two for baptism, making the total additions to the church for the week 16. The baptismal service was solemnized at the close of the night service.

The meeting closed Sunday night on account of the Sunday School and B. Y. P. U. conventions to be held in Bryan this week at the College Avenue Baptist church.

Among the out-of-town people here Sunday to attend funeral services for Mr. Sim Edge were: Rev. S. W. Edge, Dallas; L. E. Edge, Dallas; Mr. and Mrs. A. D. Edge, Tyler; Mrs. James Allred, Dallas; Mr. and Mrs. B. F. Monroe, Waco; Miss Altha Edge, Waco; Mr. and Mrs. V. H. Cain, Houston; Mr. and Mrs. Harry Thompson, Houston; Mrs. Harold Watson, Watson; Mr. and Mrs. J. B. White Jr. of Houston.

TWO BURGLARS THOUGHT BUSY IN PAST WEEK

THREE HOMES ARE ENTERED
AND TRACKS LEFT
FURNISH CLEW

Two burglaries, thought by police to have been committed by a man and a woman, were reported late Saturday night and followed one Thursday night in which a couple also are thought to have been involved. Police have no clew to the robbers but are investigating along lines they hope will result in arrests.

The robberies Saturday night were at the homes of A. Mackenzie and M. E. Wallace. That Thursday night was at the home of J. Allen Myers. Clothing and jewelry was taken, but the police have received no estimate of the loss.

At the Mackenzie home the burglars made entrance through a window in the rear of the house and ransacked it in the absence of the family. Dresser drawers and clothes closets were disarranged. New wearing apparel and one piece of jewelry belonging to Mrs. Mackenzie was taken.

At the Wallace home the burglars broke the glass in a kitchen window and unlocked the window. Mr. Wallace was the only member of the family at home and was not aroused by the intruders although they were in his bedroom. His home was ransacked also, but he could make no estimate of loss.

At the J. Allen Myers home entrance was made by breaking a kitchen window. Clothing, including a new dress belonging to Mrs. Charles S. Myers not yet worn and a hand bag were taken. At the Myers home the footprints of a man and a woman were found.

Mexican Run down Killed By Train

Hipolyte Pena, Mexican about 40 years old, was instantly killed about 4:30 o'clock Sunday morning by a southbound I. & G. N. freight train near the Simms gin at Steele's Store, according to word received by the sheriff's office Sunday.

A dance was held in the neighborhood Saturday night and it is believed the Mexican was returning home from this when he was run down by the train. His body was badly mangled.

Among the out-of-town people here Sunday to attend funeral services for Mr. Sim Edge were: Rev. S. W. Edge, Dallas; L. E. Edge, Dallas; Mr. and Mrs. A. D. Edge, Tyler; Mrs. James Allred, Dallas; Mr. and Mrs. B. F. Monroe, Waco; Miss Altha Edge, Waco; Mr. and Mrs. V. H. Cain, Houston; Mr. and Mrs. Harry Thompson, Houston; Mrs. Harold Watson, Watson; Mr. and Mrs. J. B. White Jr. of Houston.

Creath-Brazos Assoc. Now Part Of New District

Creath-Brazos Baptist Association, W. M. U. has been transferred from the Austin District of which it has been a member so long to the Houston District. This action was taken March 12 at a regular meeting of the executive board of the state W. M. U. held at Fort Worth.

The state was formerly divided into 18 districts. Under the new arrangement one district was abolished, there now being only 17 districts in the Texas W. M. U.

An organized meeting of the newly arranged Houston District will be held at Houston Thursday and Friday. Creath-Brazos Association W. M. U. will be represented at this meeting by Mrs. R. J. Holbert of Navasota, associational president; Mrs. J. L. Reese of Bryan, secretary; and Mrs. S. M. Hunter, chairman of Mission Study, and also a large representation from the Baptist church of Navasota and both Baptist churches of Bryan.

Officers Chosen By Bryan Eagle; Coulter Elected

Stockholders of the Eagle Printing Company held their annual meeting Monday afternoon in the office of the company.

The following officers and directors were elected: Mrs. Lee J. Rountree, president; H. O. Boatwright, vice president; P. A. Tardy, secretary-treasurer; Carl Cole, assistant secretary-treasurer; and Walter J. Coulter was elected the new member on the board of directors.

MARRIAGE LICENSES
Marriage licenses were issued Saturday by County Clerk Jess B. McGee to the following couples: L. M. Taylor and Katie Hancock; Eldridge Milligan and Ethel M. Davis; Eddie Billow and Geneva Bland; Lucias Lopez and Soferina Barriento.

Humor cannot be acquired, but it may be captivated. The way to be funny is not to try to be.

SENTENCE IS IMPOSED LATE ON SATURDAY

Negro Shows No Sign
of Emotion At
Edict

TRIP TO HUNTSVILLE Will Be Made When Papers Are Made Ready

Matthew Sanders, negro, convicted in district court here Saturday noon of a criminal attack on Miss Sylvia Meredith, 18-year-old school teacher of Millican last Sunday morning, the jury fixing his punishment at death, was sentenced Saturday night about 11 o'clock by Judge W. C. Davis to be electrocuted on April 27. He will be taken to Huntsville some day this week.

The attorneys for the state, F. L. Henderson, J. G. Minkert, County Attorney W. E. Neeley and County Prosecutor Tyson of Roberson county also were in court. Saturday was the last day of court and Judge Davis followed the regular term is ending motions for a new trial must be made at once, instead of within a two day period. Attorneys Oak McKenzie and A. S. Ware, appointed by the court to defend Sanders, moved for a new trial last night but the motion was denied and no appeal was taken.

In fixing the date Judge Davis took into consideration the fact that 30 days must elapse after conviction and added three days of grace.

When asked if there was any reason why sentence of death should not be pronounced Sanders did not at first understand the meaning of the question. When this was explained he said, "No." Sanders is held in the county jail here. He stood stoically while sentence of death was pronounced and stated Sunday morning that he felt all right and ate his breakfast with an appetite that would have done justice to a working man, according to Sheriff J. H. Reed.

Sunday morning, during Sheriff Reed's conversation with him, he asked when he was to be taken "over there," meaning Huntsville and was told the trip would be made in a few days.

The arrest, indictment, trial and sentencing of Sanders all took place in less than a week from the time the crime for which he will be executed was committed.

(From Tuesday's Daily)
Matthew Sanders, negro, convicted Saturday of a criminal attack on Miss Sylvia Meredith of Millican, the Sunday morning before and sentenced to be electrocuted on April 27, was taken to Huntsville this morning by Sheriff J. H. Reed and his son, Horace Reed.

The death warrant was signed yesterday by Judge W. C. Davis and turned over to Sheriff Reed. It stipulates that Sanders be electrocuted some time before sunrise on the morning of Saturday, April 27.

The negro, who asked Monday when he would be taken "over there" started on his last automobile ride this morning at 7:30 after eating his breakfast and apparently with no hesitation at taking his place with nine other prisoners now in the death house at Huntsville waiting for their legal execution.

Former Resident Succumbs Monday To Long Illness

The news was received in Bryan this morning of the death of Mrs. Mary Morgan Thibodeaux, wife of Manuel Thibodeaux, at the family home at Fort Worth Monday, after a lingering illness. Mrs. H. P. Dansby and Mrs. Roy Nunn, sisters of Mrs. Thibodeaux, were called to her bedside Monday and reached there in time to be with her when death came but other relatives who were en route arrived too late. In feeble health for many months Mrs. Thibodeaux's condition was critical but she was not thought to be so near death and the news came as a shock to relatives and many friends in Bryan and Brazos County, her girlhood home.

The body will be brought to Bryan to the home of her mother, Mrs. W. H. Morgan, tonight. Funeral services will be held from the home Wednesday afternoon at 3 p. m. with interment in the family burying ground at Reliance.

Surviving the deceased are her husband and one daughter, Miss Martha Thibodeaux of Fort Worth; her mother, Mrs. W. H. Morgan of Bryan; one brother, Claude Morgan of Bryan, and five sisters, Mrs. H. P. Dansby, Mrs. Lon Lindsey, Mrs. Clarence Saxon, Mrs. C. M. Bethany and Mrs. Roy Nunn, all of Bryan.

Humor cannot be acquired, but it may be captivated. The way to be funny is not to try to be.

Spring Court Term In Robertson County

Judge W. C. Davis will open the spring session of court in Robertson county Monday morning. A grand jury will be impaneled Monday and both civil and criminal cases will occupy the attention of the court during the term.

Over a Billion Deadly Germs in a Single Drop of Water

Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents, 60 cents, and can be had at Roman & Vick. (Adv.)

Easter Service Bryan Masons at The First Baptist

Ivanhoe Commandery No. 8, Knights Templar, is making elaborate preparations for its annual Easter service, to be held this year at the First Baptist church with the Easter address to be delivered by Sir Knight R. E. Day. Special musical numbers arranged for this occasion include an organ prelude by Mrs. H. O. Boatwright, vocal duets by Mesdames J. Webb Howell and Dan Russell and Messrs. James Page and H. P. Black, a vocal solo by Miss Kathleen Cason and special numbers by the choir. Sir Knight Thomas Gordon Watts will pronounce the invocation and the benediction will be given by Rev. R. S. Marshall, a 32nd degree Scottish Rite Mason.

The hour for this service will be 4 o'clock in the afternoon and a cordial welcome is extended by members of Ivanhoe Commandery to other local Masonic bodies, visiting Masons and to the general public to join them in their annual Easter observance.

The program has been arranged by Eminent Sir Knights R. A. Harrison and P. S. Park. The reception committee is composed of Sir Knights P. S. Park, O. O. Henderson, W. F. Davis, H. O. Ferguson, W. A. Duncan, F. E. Lichte and D. C. Jones.

Officers for Ivanhoe Commandery are: Eminent commander, O. O. Henderson; generalissimo, W. F. Davis; captain general, H. O. Ferguson; senior warden, D. P. Dansby; junior warden, J. R. McKee; prelate, G. T. McNeess; treasurer, Travis B. Bryan; recorder, W. E. Saunders; standard bearer, E. C. Dillingham; sword bearer, C. P. Sweeney; warder, W. E. Lewis; sentinel, L. B. Berdine.

The choir rendering special music for the afternoon with H. P. Black as musical director and Mrs. H. O. Boatwright, organist, will be as follows:

Sopranos: Mrs. J. Webb Howell, Mrs. E. H. Gibbons, Mrs. G. F. Singletary, Mrs. George R. Branch, Mrs. J. L. Dickenson, Miss Lida Bell Pipkin, Mrs. H. L. Durham, Miss Esther Lee Price, Miss Wylie Higgs, Miss Sadie Hamilton, Mrs. J. W. Black, Miss Mildred Salley, Mrs. George A. Long.

Tenors: Pat Newton, N. F. Lockard, W. A. Withers, Walter Johnson, James Page, Louis Thompson, James Leaden Jr.

Altos: Mrs. Daniel Russell, Mrs. J. B. Sanders, Mrs. J. G. Minkert, Mrs. F. A. Bunting, Mrs. Velma Graham, Miss Louise Pipkin, Miss Katherine Cason.

Bassos: Henry Locke, W. R. Akin, Tom Sweeney, T. P. Johnson.

Injuries Fatal To Mrs. Cook; Funeral Today

Mrs. J. M. Cook, mother of Mrs. E. L. Dillon of College, who was seriously injured in an automobile accident near College Station Saturday night, and who was taken to the College hospital, died Tuesday morning.

Deceased was 73 years, 1 month and 25 days of age. She was spending the winter at College Station with her daughter, Mrs. E. L. Dillon.

The body will be taken to her old home at Santa Anna for interment. A short funeral service will be held at the home of Mr. and Mrs. E. L. Dillon, A. and M. Campus, this afternoon at 4 o'clock conducted by Rev. R. L. Brown. At 9:30 p. m. the body will be taken overland to Caldwell, where shipment will be made to Santa Anna. The body will be accompanied by Mr. and Mrs. E. L. Dillon and friends of the deceased.

Funeral services will be held at Santa Anna cemetery, Wednesday morning. Two sons and seven daughters survive: J. W. Cook of Lott, Dan Cook of Veatch, Mrs. E. L. Dillon of College Station, Mrs. Ida Choate of Eola, Mrs. C. N. Reed of Eola, Mrs. Lee McCullough of Lamesa, Mrs. E. E. Hall of Chandler, Ariz.; and Mrs. B. E. Taylor of Vera.

More Children Enrolled in Bryan Schools Than 1928 Census Show; New Count Made by Enumerator

J. Sidney Smith Sr., the enumerator for the Bryan public schools is engaged making a list of every boy and every girl within the city limits of Bryan. Every name enrolled means \$15 to the city schools. The entire citizenship is asked to assist in the matter and see that all boys and girls between the ages of 7 and 18 find a place on this roll.

Supt. H. L. Durham has been named by the board of trustees to check the roll with the office records. Indications are that the census roll this year will run around 1,950. Last year the total was 1,817.

However, the public schools of Bryan have actually enrolled more students thus far during this year than there are names on the census roll for the current year. While only 1,817 were enumerated for the present session, thus far 1,820 students are enrolled in the public schools of the city as follows:

White schools: Travis elementary, 477; Bowie elementary, 281; Stephen F. Austin high school, 352.

Colored schools: Elementary, 598; high school, 112.

It is an unusual thing for the schools to enroll as many students in the various classes as there are names on the census roll. In most cities, the class room enrollment is about 84 per cent of the census enrollment according to Supt. Durham.

There were 191 transfers to Bryan from the various rural districts of the county, but it will be remembered that there is a parochial school in the city with an enrollment of about 150.

The explanation is that a large number of families have moved into Bryan since last March when the census for the present school year was taken.

B. Y. P. U. STUDY COURSE WINS HEAVY ENROLLMENT

Rev. R. L. Brown reports the B. Y. P. U. study course institute being conducted at the College Baptist church this week most successful, 75 students and campus people enrolling on the first day.

Instruction in this course is being given by Rev. Roy S. Holloman and H. P. Black of Bryan, Miss Katherine Sangster of Navasota and Rev. and Mrs. R. L. Brown of College.

MARRIAGE LICENSES

County Clerk Jess B. McGee issued a marriage license to Wilbur Richardson and Thelma White.

Aimless indignation accompanies nothing. An honest man's record is his best capital.

AUTO DEALERS TO MOVE INTO NEW BUILDING

JOHNSON & RONDE LEASE
NEW HOME FROM JAMES
SULLIVAN

Johnson & Ronde, Oakland and Pontiac dealers in Bryan, plan to occupy a new modern home designed especially for their business by July 1. The building will be located on Bryan Avenue and 27th street and will be erected by James Sullivan, business manager of athletics at A. and M. College, who just purchased the Johnson property at the corner.

The Johnson & Ronde building will have a frontage of 65 feet on 27th street and 150 on Bryan Avenue. It will be of brick, one story with foundations and walls to carry an additional story, and will have extensive plate glass fronts on both 27th Street and on Bryan Avenue.

The building will be constructed with two show rooms. That for new cars will face on Bryan Avenue, with a long plate glass front. The used car show room will be on the 27th Street side, which also will be fitted with a plate glass front.

A modern filling station will be located on the corner and an entrance or drive-in for cars under repair also will be built in on the Bryan Avenue side. To the rear of the new car display room will be located the offices and parts storeroom and to the rear of that division of space a room for the storage of new or used cars or the overnight storage. The shop will be on the south end of the building and will be moderately equipped and well lighted as the walls will be practically all factory glass. This section will be equipped with two show rooms, with wash racks and with lockers and other conveniences for employees.

The entire building will be designed and finished to make it as suitable as possible for the use to which it will be put. The total investment by Mr. Sullivan, in the building site and the building itself, will be approximately \$40,000.

BRAZOS COUNTY

Boys' And Girls' Club Department

Club Notes and Farm News by County Agent C. L. Beason and Home Demonstration Agent Lucy Givens

Go After Prizes
The Bryan Chamber of Commerce is offering some fine prizes this year for best records in farm crops, etc., and this is to urge farmers and farm women to send in promptly the blanks sent out some days ago. Don't neglect this matter. Enter these contests for your own benefit, for the benefit of your community and your country. C. A. Schram is entering the contest for the best acre of corn, best acre of cotton, and best five-acre home record. If he should win all three, it would mean the little sum of \$150, to say nothing of other prizes that may yet be offered. Gee, people, let's get busy.

Lena Bonana Wins
Lena Bonana of Steele's Store won the prize offered last week for first to report on having read "Club Notes." All right, Lena, the prize will be awarded at your club meeting on the first Friday night.

Denies He "Cussed"
Upon reading the last paragraph in "Club Notes" last week, Mrs. J. L. Sample of Tabor said: "Well, well, if that county agent hasn't gone to cussing," Mrs. Sample, the county agent desires to plead "not guilty," it was not that kind of word, that time. The county agent does not drink, he does not chew, he does not smoke—yet, and he "cusses" just as little as possible—none at all that time.

Plans Poultry Houses
E. S. Holmgren, poultry specialist of the Extension Service, has just completed blue prints for "Poultry House Plans for Texas," not only giving plan but also description of every piece of material as well as many helpful hints.

Will Help "Rooster Roast"
County Agent Glenn Stinnett of Robertson county states that he will be glad to attend the Brazos county 4-H Club encampment and help conduct the "rooster roast" on an event that will tempt the appetite of both Jew and Gentile.

Do We Live At Home?
F. R. Brison, horticultural department, Texas A. and M. College, raises the question, "Do you really live at home?" and then proceeds to show in a recent article in Farm and Ranch, that the hundreds of car loads of onions, tomatoes, potatoes, cantaloupes, grapefruit, lettuce, etc., shipped into Texas answers the question in the negative. Someone has said that the modern method of transportation by trucks has dealt a death blow to the packing industry in Brazos county. So far as local markets are concerned this may be true, but it should have no effect on year-around gardens where some health-giving vegetable may be found each day in the year. That such a garden may be had in Brazos county one only needs to recall how R. R. Reppert transformed a Bermuda sod in the eastern part of Bryan into a wonderful garden supplying fresh vegetables every month in the year.

Grade Row Ends
Constant turning at the ends results, oftentimes, in raising the level of the outlet, or ends of rows thus causing bagging of water and making cultivation disagreeable after rains. This trouble may be avoided in many ways, by plowing land toward center of fields, or

Millican

MILICAN, March 28.—Justice? What crimes are committed in this name. God failed her for I know she cried out to Him for mercy. Men failed her, for she had to cry out to 120 to get 12 to avenge her. Our courts crucified her, dragging her before thousands to tell her horrible experience. Law must take its course. Justice must be done. Mercy shown to a brute that showed no mercy. Lawyers, sheriffs, judges glorified, but the poor little bruised bit of humanity crucified, and only a few short days before a man shot and is ever seen a search was made for the man who did the crime it was so quietly done he has never been recorded. He merely disappeared. And this dastardly crime was emblazoned to the world. Where is the boasted chivalry toward women? Gone with the men that really possessed that glorious attribute, and Brazos county womanhood stands helpless and abashed.

Warehouse Burns With Estimated Loss of \$12,000

Fire which caused an estimated loss of \$12,000 with no insurance, totally destroyed the grain and hay warehouse of M. J. Tremont, located on the I. & G. N. tracks early this morning. Mr. Tremont estimates his loss at \$10,000 while the Gulf Coast Roofing Company, represented by M. M. Erskine, which had stock stored there, estimates a loss of \$2,000. The fire was discovered about 12:40 o'clock this morning and the firemen played water on the flames and smoldering hay and grain with which the building was well filled, until about five o'clock this morning. The cause of the fire has not yet been determined.

The fire was the hottest fought by the local department in months. The building was stored with baled hay and corn and other grain, roofing materials, and the work of totally extinguishing the fire was long drawn out and tons of water were poured on the smoldering mass.

A freight car on the I. & G. N. tracks that just had been unloaded caught fire but the flames were extinguished and the car pushed beyond the range of the fire.

The building was about 40x100 feet and with corrugated iron sides and roof and was of single story construction.

Habit of Thrift Taught by Bank Says School Head

Supt. H. L. Durham in making his weekly report of the Thrift Savings Bank says: "The Thrift Bank, being carried on in the Travis elementary school, has succeeded beyond the fondest expectations of the Parent-Teacher Association under which it is operated, and also the superintendent of the school."

"It is without doubt one of the outstanding accomplishments of the P.-T. A. Its benefits are not temporary but contain an element of character building so many times wanting in our modern system of education. True thrift simply means sacrificing some of our temporary wants, either in time or money, in order to be able to achieve some larger needs, necessary to a fuller and better life."

"The sacrifices which the children of the Travis School have made this year in order to carry these accounts vary from saving a nickel with which the student would otherwise buy candy, to the student who has found work in order that he too might have a thrift account in the bank."

"The Thrift Bank is a place where the student with large or small amounts may learn that his money can and will earn profit for him. All accounts are drawing interest. Students learn that small amounts grow into large amounts by constant additions. We cannot overestimate the value of the interest which has been created among the students just at this point. Thrift is a habit. Few habits are formed after students have passed out of the school age. The Thrift Bank is operating with that part of our citizenship which can be successfully influenced to make a habit."

"The Thrift Bank operating in our Bryan schools," continued Mr. Durham, "deserves not only the whole-hearted consent of our splendid city but also the active support of every interest of our city, because these are our very own boys and girls. Tomorrow they will be our professional business men and women, here and elsewhere."

Tuesday the Thrift Bank gave deposits from the entire school \$158.08. For the first time since the organization of the bank a room in the school had a 100 per cent deposit. Miss Josephine Eden's room had every student as a depositor.

With the Tuesday deposits included, the Thrift Savings Bank has to date \$1,512.41.

Over in Australia airplanes are being tested for life saving work. Here in the South in the last two weeks they have been used successfully.

EASTER HUNT ARRANGED BY LOCAL LIONS

PLAN TO DYE 4,600 EGGS AND INVITE COUNTY TO FROLIC

In the course of a year's time the Bryan Lions Club does many things of public interest, but the one thing that is at least second to the Lions minstrel, in point of public interest, is the Easter egg hunt which has been sponsored annually by the local club since its organization. Heretofore the Lions Club has called upon the various churches of the city for Easter eggs and such other assistance as individual churches cared to render.

At the regular weekly luncheon of the club last Tuesday it was decided that the burden of the project should be born by the club alone, and to that end President Henry Locke appointed a general committee as follows: F. D. Fuller, chairman, A. S. Ware, R. V. Armstrong, Noah W. Dansby, Tom G. Suber, Bill Wimberly, M. M. Erskine, Jno. M. Lawrence Jr., and H. L. Durham.

The above named committee held its first meeting last night and worked out various details. The hunt will be held in Sue Haswell Memorial Park at 2:30 Saturday afternoon March 30. It is estimated that ten cases of eggs, or 3,600, will be required to insure success of the hunt, which grows in interest from year to year. A sub-committee composed of Bill Wimberly and Jno. M. Lawrence Jr., was appointed by Chairman Fuller to purchase the eggs and have them dyed.

Another important committee named by the chairman was the prize committee. Noah W. Dansby was named chairman who will select such assistance as necessary. Business houses who have Lions within their personnel will be solicited to offer prizes for the return of eggs bearing their name.

One feature of this year's Easter egg hunt is that it is to be county-wide, no limitations or restrictions whatever will be exercised. Everyone in Brazos county, from the youngest to the oldest, is invited to participate. A large crowd is expected and the Lions Club will spare no time, trouble or expense in making the afternoon an enjoyable one for everyone.

Local Dairyman Is Asked to Talk

Carl Wipprecht, a local dairyman and breeder of high grade dairy stock, has received an invitation from W. M. Elam, teacher of vocational agriculture in the Taylor high school, to address the class in vocational agriculture at Taylor on the evening of March 28.

Mr. Wipprecht's subject will be "Feeding Dairy Cattle for Production." Such invitations come frequently to Mr. Wipprecht, whose practical experience and scientific training in the dairy field has well qualified him to disseminate helpful information among those who plan to enter the field of dairy production and breeding.

Talkies Premier At Palace Draws Large Audience

Residents of Hearne, Calvert and other towns and cities within a 30 mile radius of Bryan joined with citizens of this city in celebrating the opening of the Palace theatre last night for Vitaphone performances. Reports from those who attended are to the effect that the premier here was a success.

The audience filled the lower part of the house and the balcony was partially filled and the house would have been sold out, it is believed, had the weather been less inclement.

Changes made in the theatre have improved the acoustics and the tonal qualities of the voices heard in dialogue in "Interference" and in songs in the Vitaphone vaudeville numbers were reported good. Those present who had heard Vitaphone performances elsewhere had no criticism to offer of the performance last night.

Tyler Haswell Visits Stone Mountain and Brings Bits To Bryan

We have on our desk today a paper weight, a small block of granite of Stone Mountain, 16 miles from Atlanta, Ga., where the Confederate Memorial is being carved. It is a beautiful blue-gray, hard granite, flecked with glistening bits which makes it sparkle like "diamonds in the sky." A photograph of what the sculpturing will be when completed graces the top of the weight and brings a message of beauty and action.

This weight was a gift from our good friend Tyler Haswell, who made the trip with the Republican delegation from Texas to Washington to witness the inauguration of President Herbert Hoover and stopped off in Atlanta, Ga., to see this Stone Mountain and the marvelous undertaking of the Confederacy.

Pupils of Bowie In County Meet Are Entertained

In appreciation of the work done by the teams representing the Bowie elementary school in the county meet of the Interscholastic League, Mr. and Mrs. Morris Schulman and Holmes Bros. furnished two hours of joyful entertainment to the groups and their directors Thursday evening.

Leaving the building immediately after the close of the afternoon session, the crowd went to the Queen Theatre where Mrs. Schulman greeted them in her own happy way and ushered them to their seats. Two hours of splendid amusement passed rapidly and then the guests reported to the Holmes Bros. confectionery where all three members of the firm were waiting to serve them with the delicious refreshments prepared for the occasion.

Much merriment was had and many expressions of appreciation were heard, the boys and girls as well as the teachers feeling very much impressed by the kindness and generous support of these good patrons.

Those participating in the pleasures of the party were as follows: Annie Ruth Ware, Lillie Kaplan, Frances Chance, Ina Mae McGee, Jo-Anna Tatman, Mattie Lee Wright, Victoria Kosarek, Pauline Thurman, Margaret Pasker, Jeanetta McWilliams, Alfred Hamilton, Dovie Elliott, Alfred Schulman, Arthur Stewart, Henry Litt, Edwin Beard, C. M. Bethany, and Misses Dorothy Ettie, Elizabeth Suber, Susie Benbow, Norlene Brown, Edna Harris, Nina Henry and Margaret Abel.

Representative Ewing Returns from Austin

Mr. and Mrs. R. B. Ewing arrived here Friday afternoon, having motored here from Austin after the sine die adjournment of the regular session of the forty-first legislature, wherein Mr. Ewing, ably and faithfully represented the interests of the people of Robertson county. During the sixty day session Mr. Ewing established an enviable record for faithful attendance upon the legislative sessions and he quite conscientiously and satisfactorily represented the people of this county in the councils of the state government. He is to be complimented on his part in the work accomplished at Austin. Mr. Ewing was at all times open to receive the views of his constituents and his service to the state in this important office is to be commended.—Franklin Texan.

County Winners In Spelling and Essay Contests

Final results of the contests in spelling and essay writing in the county Interscholastic League meet, held last Friday, have been announced by E. M. Walls. Both city and county schools were represented among the winners.

County Winners In Spelling and Essay Contests

Winners among the schools and pupils in the spelling contests were as follows:
Sub-Junior: 1. Millican, represented by Margaret Smith and Samuel Milton Dunlap; 2. Harvey, represented by Horace Barron and Anita Hensarling; 3. Steele's Store, represented by Gertrude Barnett and Frances Noto.

Rural Junior: 1. Harvey, represented by Leo Mills and Martha Ruth Hensarling; 2. Millican, represented by Vivian Downs and Virginia Lovell; 3. Steele's Store, represented by Rena Perrone and Nellie Barnett.

Rural Senior: 1. Harvey, represented by Eunice Graham and Kenneth Buchanan.

Ward Sub-Junior: 1. Bowie, represented by Al Schulman and Ina McGee; 2. A. and M. Consolidated, represented by Billie Mae Marburger and Peggy Campbell; 3. Travis, represented by Helen Miller and Mildred Jahn.

Ward Junior Division: 1. Bowie, represented by Edwin Beard and Arthur Stewart; 2. Edge, represented by Mable Still and Gladys Barnett; 3. Travis, represented by Ruth Beard and Louise Cash.

Senior High School: 1. Bryan high school, represented by Frances Thomas and Frances Branch; 2. A. and M. Consolidated, represented by Marquez Ehlinger and Ruth Carroll; 3. Tabor represented by Velma Holiday and Mildred Seeley.

Ina Mae McGee and Arthur Stewart, both students of Bowie Elementary school, had 100 per cent papers. These will be sent to the University Interscholastic League at Austin and certificates will be awarded for perfect papers. The essay contests resulted as follows: Class "A", high school, Jessie Merle Henry, Bryan; Class "B" high school, Waldon Orr, Edge high school.

Ward and Grammar Grades: 1. Margaret Beason, Travis Elementary school; 2. Annie Ruth Ware, Bowie Elementary school.

The danger of carrying firearms is almost daily demonstrated. Saturday a Texas man was killed when a revolver carried under the seat of his automobile exploded while he was sitting on it.

Their Lives In Your Hands

SO MUCH depends upon the care you give them. Now when they're so helpless and dependent on you to keep them alive... now, when their whole future depends on the feed you choose... is the time to feed Purina Chick Chow.

They'll repay you for it many times in the months to come. Purina has all the proteins, minerals and vitamins it takes to strengthen and develop their tiny frames and start them on the way to early and profitable maturity.

Chicks' lives are in your hands. Feed them the best and safest feed that science can produce. Feed them Purina.
